Experience

Associate Professor, ShanghaiTech University, 2020–present
Visiting Professor, IMT School for Advanced Studies Lucca, Italy, Summer 2024
Assistant Professor, ShanghaiTech University, 2014–2020
Academic Visitor, CPSE, Imperial College London, Summer 2018
Visiting Scholar, EECS, University of California, Berkeley, Winter 2016
Visiting Professor, Institute for Microsystems Engineering, University of Freiburg, Summer 2014
Visiting Professor, Freiburg Institute for Advanced Studies, University of Freiburg, Summer 2014
Research Faculty, Department of Automation, Shanghai Jiao Tong University, 2013–2014
Postdoctoral Researcher, CPSE, Imperial College London, 2012–2013
Postdoctoral Researcher, Optimization in Engineering Center, KU Leuven, 2011

Education

Ph.D. in Electrical Engineering, KU Leuven, 2011
Diploma in Mathematics, University of Heidelberg, 2007

Honors and Awards

- Scientific Advisory Board Member, EU Project ELO-X, 2021–2024.
- SIST Excellence in Research Award, ShanghaiTech University, 2019.
- ShanghaiTech Excellent Professor Award, ShanghaiTech University, 2016.
- SIST Excellence in Research Award, ShanghaiTech University, 2016.
- FRIAS Fellowship (for visiting professors), Freiburg Institute for Advanced Studies, University of Freiburg, 2014.
- ICCOPT Best Paper Award for a Young Researcher in Continuous Optimization (Finalist, Top 3) for the paper “Nonlinear Robust Optimization via Sequential Convex Bilevel Programming” by B. Houska and M. Diehl, Mathematical Programming, Series A, 2013.
- Marie-Curie Fellowship for the project “Next Generation Algorithms for Robust and Global Optimization of Dynamic Systems”, 2012.

Research Projects and Leadership Roles

- External Partner, EU project ELO-X on “Embedded Learning and Optimization for the Next Generation of Smart Industrial Control Systems”; 2021–2024.
- PI, Bilateral Grant Agreement (Sino-German Mobility Program; together with Prof. Timm Faulwasser, Prof. Karl Worthmann, Prof. Matthias Müller) for the project “Distributed Optimization and Control of Networked Energy Systems”, 2020–2022.
- PI, Bilateral Grant Agreement (Slovakia-China, together with Prof. Radoslav Paulen) for the project “Verified Estimation and Control of Chemical Processes”, 2018–2020.
- Full member of the Scientific Network on “External Regulation of Mobile Robots using Model Predictive Control: Beyond Set Point Stabilization” funded by German Research Foundation (DFG), 2017–2018.
- PI, Bilateral Grant Agreement (Slovakia-China, together with Prof. Michal Kvasnica) for the project “Robust Model Predictive Control meets Robotics”, 2015–2017.
- PI, NSFC Grant for the project “Embedded Optimization Algorithms for Economic Model Predictive Control”, National Natural Science Foundation China, 2015–2018.
- Associated member of the Scientific Network on “External Regulation of Mobile Robots using Model Predictive Control: Set Point Stabilization, Path Following, and Distributed Control” funded by German Research Foundation (DFG), 2015–2016.
- PI, Marie-Curie project (FP7) “Next Generation Algorithms for Robust and Global Optimization of Dynamic Systems”, 2012.
- Various institutional grants (Imperial College London (2013), Shanghai Jiao Tong University (2013/14), ShanghaiTech University (2014–present)).

Selected Invited Lectures

1. Institute for Mathematical and Statistical Innovation, University of Chicago, USA, 2025.
Video available at [IMSI WEBSITE](#)
2. Slovak University of Technology in Bratislava, Slovakia, 2025.
3. School of Computation, Information and Technology, TU München, Germany, 2025.
4. Institute of Control Systems, TU Hamburg, Germany, 2025.
5. CDC Workshop on “Data-driven modelling, analysis, and control using the Koopman operator”, Milano, Italy, 2024.
6. IMT School for Advanced Studies Lucca, Italy, 2023.
7. Automatic Control Laboratory, EPFL, Switzerland, 2023.
8. School of Computation, Information and Technology, TU München, Germany, 2023.
9. Department of Mathematics, TU Ilmenau, Germany, 2023.
10. Department of Mathematics, University of Bayreuth, Germany, 2023.
11. **Semi-Plenary Lecture**, 25th MTNS Conference, Bayreuth, Germany, 2022.
This is the prime conference on all mathematical aspects in systems and control theory.

12. **Invited Tutorial Lecture**, American Control Conference, Atlanta, 2022.
13. Invited Presentation, IFAC Virtual Seminar (TC 2.4 on Optimal Control), 2022.
14. IMTEK, Faculty of Engineering, University of Freiburg, Germany, 2021.
15. Slovak University of Technology in Bratislava, Slovakia, 2019.
16. IMTEK, Faculty of Engineering, University of Freiburg, Germany, 2019.
17. Karlsruhe Institute of Technology, Germany, 2019.
18. **Keynote Lecture**, CPSE Summer School, Imperial College London, UK, 2018.
19. Slovak University of Technology in Bratislava, Slovakia, 2018.
20. International Symposium on Mathematical Programming, France, 2018.
21. 14th Viennese Conference on Optimal Control and Dynamic Games, Vienna, 2018.
22. Fourth Symposium on Future Innovations in Process Systems Engineering, Greece, 2018.
23. **Keynote Lecture** (in the form of a workshop), 21st International (IFAC) Conference on Process Control, Štrbské Pleso, Slovakia, 2017.
24. Institute for Automation Engineering, Otto von Guericke University Magdeburg, 2018.
25. INFORMS Annual Meeting, Houston, USA, 2017.
26. Automatic Control, Automation and Mechatronics Division, Chalmers, 2017.
27. Bremen Institute of Industrial Technology, University of Bremen, 2017.
28. Slovak University of Technology in Bratislava, Slovakia, 2017.
29. Hybrid Systems Group Seminar, EECS, University of California, Berkeley, 2017.
30. Joint Annual Meeting of the International Association of Applied Mathematics and Mechanics, Germany, 2017.
31. Institute for Microsystems Engineering, University of Freiburg, 2016.
32. Institute for Systems Theory and Automatic Control, University of Stuttgart, 2016.
33. 5th International Conference on Continuous Optimization, Tokyo, Japan, 2016.
34. Third Symposium on Future Innovations in Process Systems Engineering Greece, 2016.
35. Slovak University of Technology in Bratislava, Slovakia, 2016.
36. Workshop on Robust Optimization-Based Control and Planning for Legged Robots, IEEE International Conference on Robotics and Automation, Stockholm, 2016.
37. Workshop on Economic and Distributed Model Predictive Control, Swiss Federal Institute of Technology in Lausanne, Switzerland, 2016.
38. 1st Symposium on Robotics and Model Predictive Control: Path Following, BIBA, University of Bremen, Germany, 2015.
39. Department of Chemical Engineering, Carnegie Mellon University, USA, 2015.
40. International Symposium on Mathematical Programming, Pittsburgh, USA, 2015.
41. Magdeburg Lectures on Optimization and Control, University of Magdeburg, 2014.
42. FRIAS Workshop on Robust Optimization and Control, University of Freiburg, 2014.
43. SIAM Conference on Optimization, San Diego, USA, 2014.

44. OPTEC Mini Symposium, KU Leuven, Belgium, 2014.
45. AIChE Annual Meeting, Atlanta, USA, 2014.
46. ShanghaiTech University, Shanghai, China, 2014.
47. **Plenary Lecture**, Best Paper Award Session, International Conference on Continuous Optimization (ICCOPT), Lisbon, Portugal, 2013.
48. AIChE Annual Meeting, San Francisco, USA, 2013.
49. 4th International Conference on Continuous Optimization, Lisbon, Portugal, 2013.
50. **Plenary Lecture**, 2nd International Workshop on Mathematics and Algorithms for Computer-Aided Manufacturing, Engineering and Numerical Control (MAMENC), Beijing, China, 2012.
51. INFORMS Annual Meeting, Phoenix, USA, 2012.
52. Computational Management Science Conference, London, UK, 2012.
53. International Symposium on Mathematical Programming, Berlin, Germany, 2012.
54. Workshop on Modeling, Simulation, and Optimization of Uncertain Systems, Heidelberg, Germany, 2012.
55. QUADS Seminar, Imperial College London, UK, 2012.
56. Benelux Meeting on Systems and Control, Nijmegen, Netherlands, 2012.
57. International Conference on Multiple Criteria Decision Making, Jyväskylä, Finland, 2011.
58. SIAM Conference on Optimization, Darmstadt, Germany, 2011.
59. International Airborne Windenergy Conference, Leuven, Belgium, 2011.
60. School of Mathematical Sciences, Shanghai Jiao Tong University, China, 2009.
61. SIAM Conference on Optimization, Boston, USA, 2009.
62. Belgian-French-German Conference on Optimization, Leuven, Belgium, 2009.
63. Conference on Modeling, Simulation and Optimization of Complex Processes, Heidelberg, Germany, 2008.
64. OPTEC Workshop on Distance Measures and Eigenvalue Optimization, Leuven, Belgium, 2008.
65. Workshop on Robust MPC, Leuven, Belgium, 2008.

Poster Awards

- CAST Directors' Award for the poster "Higher-Order Inclusions of Nonlinear Systems" by B. Chachuat, J. Rajyaguru, M.E. Villanueva, and B. Houska, 2015.
- Best Poster Award (3rd prize) for the poster "Efficient numerical methods for computation of open-loop stable kite orbits." by J. Sternberg, B. Houska, M. Diehl, Airborne Wind Energy Conference (AWEC), 2011.

Advising

Postdocs

- Main supervisor of **Mario E. Villanueva**, ShanghaiTech University, 2017–2022.
 - Winner of the 2016 Dudley Newitt Prize
 - Winner of the 2018 SIST Excellent Postdoc Award
 - Winner of the 2019 SIST Excellent Postdoc Award
 - Now Associate Professor at IMT Lucca

Students

- During my time at ShanghaiTech University I have been the main supervisor of more than 10 graduate students, including Master's Degrees and PhD tracks, and a long list of undergraduate students.

Professional Service

Technical Meetings—Leadership Roles

- Co-organizer of the invited session "Trends in Optimization for Power Systems", The 61st IEEE Conference on Decision and Control, 2022.
- Co-organizer of the invited session "Advances in set-based and stochastic methods for estimation and control of nonlinear process systems", 11th IFAC International Symposium on Advanced Control of Chemical Processes, 2021.
- Organizer of the IFAC Pre-Conference Workshop "Machine Learning meets Model Based Control" (together with Ali Mesbah, Berkeley), 21st IFAC World Congress, July, 2020.
With more than 300 participants this workshop was among the most well attended pre-conference events in the history of IFAC World Congress.
- Organizer of the "Workshop on Set-Based Methods in Estimation and Control", 12th IFAC Symposium on Dynamics and Control of Process Systems, April 23–26, 2019.
- Co-organizer of the invited session "Advances in Stochastic and Set-Based Control and Estimation", 12th IFAC Symposium on Dynamics and Control of Process Systems, April 23–26, 2019.
- Organizer of the "International Workshop on Advanced Methods for Control and Estimation of Dynamic Systems (AMCEDS 2018)", ShanghaiTech University, Shanghai, China, July 23, 2018.
- Organizer of the Scientific Network Meeting "Regulation of Mobile Robots using MPC: Beyond Set Point Stabilization", Chalmers University of Technology, Gothenburg, Sweden, September 4–6, 2017.
- Organizer of the "2015 ShanghaiTech Workshop on Model Predictive Control", School of Information Science and Technology, ShanghaiTech, China, December 11, 2015.
- Organizer of the "FRIAS Workshop on Robust Optimization and Control", Freiburg Institute for Advanced Studies, University of Freiburg, Germany, August 20, 2014.

- Co-organizer of the OPTEC Workshop on Distance Measures and Eigenvalue Optimization, June 19-20, Leuven, 2008.
- Co-organizer of the International Workshop on Modelling and Optimization of Power Generating Kites, January 30, Leuven, 2007.

Technical Program Committee

- International program committee member, 35th European Symposium on Computer Aided Process Engineering, ESCAPE, 2025.
- International program committee member, 14th IFAC Symposium on Dynamics and Control of Process Systems, including Biosystems, DYCOPS, 2025.
- International program committee member, 8th IFAC Conference on Nonlinear Model Predictive Control, IFAC-NMPC, 2024.
- International program committee member, 13th Dynamics and Control of Process Systems, DYCOPS-CAB, 2022.
- International program committee member, 58th IEEE Conference on Decision and Control, December 11–13, 2019.
- Member of the Technical Program Committee on Process Control, IEEE Control Systems Society, 2018–present.
<http://process-control.ieeecss.org/industrial-home>
- International program committee member, 12th IFAC Symposium on Dynamics and Control of Process Systems, April 23–26, 2019.
- International program committee member, 6th IFAC International Conference on Nonlinear Model Predictive Control, August 19–22, 2018.
- International program committee member, 15th IEEE International Symposium on Safety, Security, and Rescue Robotics, October 11–13, 2017.
- International program committee member, Airborne Wind Energy Conference, October 5–6, 2017.

Conference Session Chair/Co-chair

- Chair of the session *Robust Control I*, 63rd IEEE Conference on Decision and Control, Milano, Italy, December, 2024.
- Area chair (for the area “Model Based Control”), 12th IFAC Symposium on Advanced Control of Chemical Processes (ADCHEM), Toronto, July, 2024.
- Area chair (for the area “Optimization and Computing in Control”), 24th International (IFAC) Conference on Process Control, June, 2023.
- Area chair (for the area “Optimization and Computing in Control”), 23rd International (IFAC) Conference on Process Control, June, 2021.
- Co-chair of the session *Predictive Control for Nonlinear Systems*, 58th IEEE Conference on Decision and Control, Nice, France, December, 2019.

- Chair of the session *Predictive Control of Nonlinear Systems I*, 57th IEEE Conference on Decision and Control, Florida, USA, December, 2018.
- Area chair (for the area “optimization”), 6th IFAC International Conference on Nonlinear Model Predictive Control, August, 2018.
- Chair of the outbreak session *Open problems, tools, and methods to handle and tackle uncertainty in large scale systems*, Fourth Symposium on Future Innovations in Process Systems Engineering (FIPSE’18), Chakidiki, Greece, June 25–27, 2018.
- Organizer and chair of the invited session *Global Optimization*, INFORMS Annual Meeting, Houston, USA, October, 2017.
(together with Dr. Mario E. Villanueva)
- Chair of the session “Sparse Representation”, ShanghaiTech Symposium on Data Science, Shanghai, June 2015.
- Chair of the session “Large Scale Parallel and Distributed Optimization”, ShanghaiTech Symposium on Data Science, Shanghai, June 2015.
- Chair of the invited session *Topics in Global Optimization*, INFORMS Annual Meeting, Phoenix, USA, 2012.
- Chair of the session *Robust Nonlinear Control I*, 7th IFAC Symposium on Robust Control Design, Aalborg, Denmark, 2012.
- Co-chair of the session *Robustness Analysis*, 7th IFAC Symposium on Robust Control Design, Aalborg, Denmark, 2012.

Expert Reviewer for Funding Agencies

- Expert reviewer for Research Foundation Flanders (FWO), 2017.
- Expert reviewer for German Research Foundation (DFG), 2016/17 and 2020–present.

Editorial Activities

- Associate Editor, IFAC Conference on Nonlinear Model Predictive Control, 2024.
- Associate Editor, IFAC Symposium on Advanced Control of Chemical Processes, 2024.
- Associate Editor, IFAC Conference on Process Control, 2023.
- Associate Editor, IFAC Conference on Process Control, 2021.
- Associate Editor at Large, IEEE Conference on Decision and Control, 2019.
- Subject Editor, Optimal Control Applications & Methods, 2018–2022.
- Associate Editor, IFAC NMPC (Conference Proceedings), 2018.

Technical Reviewer

- Selected journals: Automatica, IEEE TAC, SIOPT, SICON, Math. Prog., JOGO, etc.
- Selected international control conferences: CDC, ECC, ACC, IFAC World Congress, etc.

Opponent Services

- PhD Jury Committee Member, Alex Andriën, TU Eindhoven, 2022.
- External assessor (member of Ph.D. jury committee) of Dries Telen, KU Leuven, 2014.
- Co-examiner of Benedikt Schleusener's Bachelor Defense, University of Freiburg, 2014.

Teaching

ShanghaiTech University (Institute of Mathematical Sciences)

- Linear Algebra.
Fall 2024, Fall 2025.
- Mathematical Modeling.
Spring 2026.
- Numerical Analysis.
Fall 2022, Spring 2024, Spring 2025.

ShanghaiTech University (School of Information Science and Technology)

- Mathematical Control Theory.
Spring 2023.
- Introduction to Control.
Spring 2017, Fall 2017, Fall 2018, Fall 2019, Fall 2020, Spring 2022.
- Numerical Analysis.
Fall 2014, Fall 2015, Spring 2017, Fall 2017, Fall 2018, Fall 2019, Fall 2020, Spring 2022.
- Optimal Control.
Summer 2016.
- Linear Systems.
Spring 2015 and Spring 2016.
- Linear Algebra.
As substitute teacher (2 x 2h): Fall 2017.
- Introduction to Information Science and Technology.
As assistant teacher: Spring 2015, Spring 2016, Spring 2017, Spring 2018, and Spring 2019.

University of Freiburg

- Organizer of the “TEMPO-Course on Robust Optimal Control” (together with S. Diamond, Stanford), September 3-4, University of Freiburg, 2014.

Shanghai Jiao Tong University

- Assistant teacher of the course “Basic Principles of Automation” (together with Wei Wang), Fall 2013.

University of Trento

- Co-organizer and teacher of the “Nonlinear Dynamic Optimization Course” (together with M. Diehl), July 4-8, Trento, 2011.

Norwegian University of Science & Technology

- Co-organizer and teacher of the “Numerical Optimal Control Course” (together with M. Diehl), June 7-11, Trondheim, 2010.

KU Leuven

- Organizer of the OPTEC Tutorial Course on Automatic Control and Dynamic Optimization (together with M. Diehl and H.J. Ferreau), July 14-15, Leuven, 2011.
- Co-organizer and teacher of the ATHENS Course on Embedded and Convex Optimization for Control (together with S. Boyd and M. Diehl), March 15-19, Leuven, 2010.
- Co-organizer and teacher of the ATHENS Course on Numerical Optimal Control Algorithms and Applications in Renewable Energy Systems (together with H.J. Ferreau and M. Diehl), November 16-20, Leuven, 2009.

Publications

Summary

Dr. Houska has over 58 journal papers published or in press, one of which has won a best paper award. He has published 62 peer-reviewed conference papers and 3 book chapters. His publications have been cited over 6000 times in Google Scholar with an h-index of 35 as of March 2026. Links to his publications can be found at scholar.google.com/citations?user=FetRI5cAAAAJ&hl=en
